 <div data-bbox="224 1327 760 1402"><input type="text" value="Email"/></div> <div data-bbox="224 1423 760 1499"><input type="password" value="Password"/></div> <p data-bbox="451 1516 760 1541">Don't have an account? <a href="#">Sign UP</a></p> <div data-bbox="224 1570 760 1642"><b>Login</b></div>	<p>Login page :-</p> <ol style="list-style-type: none"><li>1. Here is supposed to fill his/her email address and password .</li><li>2. Authentication Firebase authentication</li></ol>
--	---

 <div><input type="text" value="Email"/></div> <div><input type="password" value="Password"/></div> <div><input type="password" value="PasswordConfirm"/></div> <p>Don you have an account? <a href="#">Login</a></p> <div>Sign Up</div>	<p>Signup page :</p> <ol style="list-style-type: none"><li>1.The new user has to enter the email address .</li><li>2. Also the user needed to set a password and again confirm the password .</li></ol>
---	---

	<p>Add screen page</p> <p>Here , for adding the task the user needed to enter the topic first the subtitles and . Also the pictures related to the work the user can choose . Now by adding to the add task , it is all set .</p>
--	---

Homepage :-  
Here all the tasks was stored which the user wants to add .Also you can mark the tick once the work is done .

 <p>The image shows a mobile application interface for updating a task. It features a light gray background. At the top, there is a large, empty rectangular area. Below this, there are two input fields: the first is labeled 'title' and the second is labeled 'subtitle'. Underneath the input fields, there are three square icons with rounded corners. The first icon shows a person in a green shirt jumping to shoot a basketball. The second icon shows two people sitting at a table, talking. The third icon shows a person in a green shirt standing next to a tree. At the bottom of the screen, there are two buttons: a green button labeled 'add task' and a red button labeled 'Cancel'.</p>	<p>Update screen page :</p> <p>Now to updating the task the user can do , whether the user want to change the topic or the subcontent , he can do and can update the task .</p>
